## Thermtrol Corporation Celebrates 20 Years of Manufacturing in Vietnam

North Canton OH July 6, 2023 Thermtrol Corporation, a leading provider of wire harness serving the automotive, heavy vehicle off road, agriculture, industrial and medical industries who is headquartered in North Canton, Ohio, USA announced today that they will celebrate their 20<sup>th</sup> anniversary of manufacturing in Vietnam later this year.

“Thermtrol Corporation is excited and honored to celebrate this important 20-year milestone with our all our valued team members. Over the last 20 years, we have grown from 2 employees in 2003 to over 900 employees last year. During this growth period we have continually invested in new facilities, processes, and equipment to ensure that our products provide world-class quality and value to our customers. We are excited about the future of Thermtrol and know that our Vietnam team is ready to embrace the growth and opportunities that await us.” said Mr. Dan Kight, Thermtrol President.

Thermtrol, a pioneer in utilizing Vietnamese manufacturing since 2003, identified this region as a leader in the global commerce very early on for its capable workforce and competitive economics. In addition to industry leading quality and customer service, the facility also holds ISO 9001, ISO 14001 and IATF 16949 certifications further supporting their leadership in the wire harness industry. Thermtrol customers enjoy the benefits of Asian manufacturing along with local warehousing, support, and a multinational sales force.

“Thermtrol continues to lead the way in Vietnamese manufacturing. We have forged strong partnerships with the local workforce and regional economic authorities, which allows us to excel in our effort to become a global leader in our industry. We appreciate our team, and the achievements we’ve made together.” said Mr. Rick Morton, Thermtrol Vice President – Sales.
