# THERMTROL ISO/TS 16949 CERTIFICATION

North Canton, OH, July 29, 2014– Thermtrol Corp., an international world-class manufacturer of wire harnesses and thermal controls, has announced that it has achieved ISO/TS 16949 certification. This certification demonstrates Thermtrol's continuing commitment to delivering quality products. "At Thermtrol, we continue to push ourselves to achieve the highest quality standards for the industries we serve," says Senior Vice President of Operations John Komer. "Third-party certification to ISO/TS 16949 conducted by Bureau Veritas exhibits our commitment to meeting and exceeding the expectations of our customers through world-class quality, customer service excellence and engineering support."
